

Sustainability Training - Tax

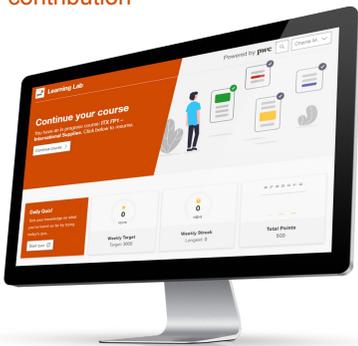

Training modules for your **Tax department** - a curated suite of technical training designed by PwC's subject matter specialists

Sustainability is fundamentally evolving the way in which society lives and how businesses operate. Tax reflects a business's contribution to society, it is an important value driver in delivering on the business's Sustainability goals. Tax considerations are therefore central to any business's Sustainability transformation journey.

There is a pressing need for people in all businesses to familiarise themselves with the Sustainability agenda, how it impacts their business and the role they need to play in their capacity as a Tax professional. PwC has therefore developed Sustainability tax, legal, and people training modules to support you in this critical upskilling journey.

Whilst there is certainly value in completing all modules regardless of your role, the modules that have a particular Tax focus include:

- **Carbon Taxes & Pricing**
- **Energy Transition & Renewables**
- **ESG in Deals**
- **Evolution of environmental taxes**
- **Governance (Part 1 and 2)**
- **Tax and People aspects of supply chain**
- **Tax credits and incentives**
- **Tax transparency and total tax contribution**

How does it work?

You can gain access to PwC's full range of courses or choose selected courses which suit your business's needs. We provide the files to you to upload on your own learning management system.

Other departments in your business to upskill in Sustainability?

PwC has also developed modules that have a People/Human Resources and Legal focus. The modules include:

- ➔ **Business stability and sustainability**
- ➔ **ESG corporate and financial reporting**
- ➔ **ESG in executive pay and incentives**
- ➔ **Fairness in the Workforce**
- ➔ **Labour rights and working conditions**
- ➔ **Legal and regulatory burden**
- ➔ **The S in a Fair Transition**
